# **NOTICE TO RESIDENTS**

**Please be aware that with the recent temperature drop, one of our intake lines is currently frozen and the functioning line has unfortunately dropped to the bottom and is taking in debris which is resulting in the discoloration of the water.**

**The water will remain dark until we can get the other line thawed or until spring thaw when we can raise the functioning intake line to the proper depth.**

**We are sorry for the inconvenience, but the issues are out of our control. The water is still testing good for hygienic purposes. Test results will now be posted by the RO Unit.**

**If you have any questions or concerns, please feel free to contact one of the Councilors.**

**Sincerely,** *Village of Liberty Council*
